PROFESSIONAL SUMMARY:

Recent graduate with a strong foundation in **full-stack development**, proficient in front-end technologies such as HTML, CSS, JavaScript, React and SQL Expertise in building responsive designs and UI/UX solutions, with a focus on mobile-first development. Skilled in developing web applications using JS frameworks like react and managing **SQL databases** to ensure data integrity and optimal performance. Adept at working with **REST APIs** and **web services** to integrate dynamic features into applications. Passionate about **collaborating** with cross-functional teams to define requirements and deliver scalable **solutions**. Familiar with **WordPress** development and eager to apply my knowledge to contribute to website and application maintenance. Strong understanding of **teamwork**, with excellent communication skills to work effectively in a collaborative environment.

EDUCATION:

B. Tech in Electronics and Communication Engineering
Vaagdevi College of Engineering, Warangal

2021-2024

CGPA: 7.63

PROJECTS:

CALCULATOR

- A clean UI and dynamic state management to perform basic arithmetic operations.
- Applied unit testing to ensure functional accuracy and reliability.
- Used React virtual DOM to ensure efficient rendering.
- By this I came to know to use Eval method in JS

MATCHING CARDS GAME | [Link](#)

- It was designed to enhance the overall user experience by providing logical ability for refreshment to the Users.
- Provide an option to restart the game anytime with the cards reshuffled.
- Shuffle the cards at the start of the game to make each playthrough unique.
- Optimize images and animations for fast loading, especially for mobile users with limited time.
- This helps me more to practical experience on how to use ForEach method

TOUR TRAVEL PAGE | [Link](#)

- It was developed based on the real time situation in the day-to-day life. Many people go for tours with misguidance.
- It shows the places to travel and shows value for the trip and gives a small description about it
- This project shows the local tourist places where the people usually go for trip.
- this helped me to add customize CSS

WHATSAPP CLONE | [Link](#)

- A WhatsApp clone is essentially an application designed to replicate the features and functionalities of WhatsApp, which is a popular messaging platform.
- A user friendly was developed and many challenges faced and overcome by researching skills.

TECHNICAL SKILLS:

- **Web Technologies:** HTML, CSS
- **Frameworks and libraries:** Bootstrap, REACT JS
- **Languages:** JavaScript, SQL
- **Developer Tools:** GitHub, VS Code, AWS, MYSQL

SOFT SKILLS:

- Adaptability
- Self-Motivation
- Patience
- Team player
- Flexibility

CERTIFICATES:

- INDUSTRIAL TRAINING on Telecommunications Technologies at BSNL | [Link](#)
- INTERNSHIP ON Web development at INTERNPE | [Link](#)
- PCB Workshop on Implementation of Silicon board | [Link](#)
- IEEE NSPAC'21 A national level Flag-Ship event | [Link](#)
